VGA Extender over CAT5/6 with Audio up to I,000ft. (300m)

Extend high-resolution VGA signals over a single CAT5e/6 cable

The KanexPro VGA extender over a single CAT5e/6 cable is designed for routing high-resolution VGA signals and stereo audio over remote distances up to 1,000ft. (300m). The 15-pin HD connectors are convenient and cost-effective for all input/ output connections supporting full bandwidth compatible from VGA to WUXGA graphics card resolutions and HDTV's to projectors. In addition, each output performs a separate buffering to maintain signal integrity and reject noise interference.
